

KnowledgeOwl

KnowledgeOwl Configuration

- Log into your KnowledgeOwl admin session and in Settings, click on Security
- In the SAML SSO Integration section, click on Enable SSO and fill the following fields:
 - IdP entityID

```
https://mydomain.trustelem.com/app/33XXXX
```

- IdP Login URL

```
https://mydomain.trustelem.com/app/33XXXX/sso
```

- IdP Logout URL

```
https://mydomain.trustelem.com/app/33XXXX/on_logout
```

- Click on Map SAML Attributes and fill the following fields:
 - Username / Email

```
email
```

- First Name

```
firstname
```

- Last Name

```
lastname
```

- If needed, you can map other attributes and send them with the advanced settings script on Trustelem, for example:

```
function CustomSAMLResponse(msg: SAMLResponse, user: User, groups: Groups, deny: Deny): void {  
    msg.setAttr("username", user.firstname+"."+user.lastname);  
}
```

- Download the Trustelem certificate and import it by clicking on Upload IdP Certificate
- In Advanced Option, check the second option, Issue a remote logout request using the IdP logout URL when a reader logs out
- You can restrict access to SSO by checking Restrict Access to SSO

Trustelem Configuration

- On Trustelem, write your KnowledgeOwn base in the corresponding field
-
