ThousandEyes

ThousandEyes Configuration

- Log into your ThousandEyes admin session and in Account Settings click on Organization Settings
- In Setup Single Sign-On click on Enable Single Sign-On and choose the Metadata File for the configuration
- Download the metadata and import the file
- Click on override next to Logout Page URL and write the following URL:

```
https://mydomain.trustelem.com/app/3XXXXX/on_logout
```

- You can then click on **Run Single Sign-On Test** and **Save**
